Trick 3: The Disappearing Ball

STEP 1

Mark a three sided rectangle on the lower 2/3rds of the cup, make two holes in the corners and cut to create a flap.

STEP 2

Push the flap in and out of the cup to test. Drop a ball or small item into the cup, then holding it in the cup with the flap.

STEP 3

Ensure that the solid side of the cup faces the audience at all times during the trick, and push flap down like so in the picture above.

STEP 4

Tip the cup upside down to show the ball has disappeared, then tap or blow (release the flap) to make ball drop from cup.
